INDEX TO VOLUME 1, 1944

Subjects dealt with under various headings in the JOURNAL are set out both in the main Index and under their respective headings—for example 'Leading Articles', 'Reviews.' Names of authors of original articles are included in the Index. There is a separate Index to Abstracts. Names of authors of articles abstracted are also listed together separately.

Abstracts are indicated by the letter (A); Leading Articles by the letter (L); Original Articles by the letter (O); and Reviews by the letter (R).

		Pages			Pages
No. 1	January	1–80	No. 3	July	145–206
No. 2	April	81–144	No. 4	October	207–266

A

Absence from work: prevention of fatigue, 201 (R)
Absenteeism among industrial workers, problem of, 132 (A)
——— ——— ——— women, a study of, 75 (R)
Abstracts—*see* separate Index, p. viii
Acetone, physiological properties governing action of, together with determination of toxicity, 262 (A)
——, poisoning and hazard of butanone and, 261 (A)
Aerosol—OT, chronic toxicity of, 129 (A)
Air-borne dusts, measurements of concentrations of, 67 (A)
Aluminium and alumina, effect of on the lung in grinders of duralumin aeroplane propellers (DONALD HUNTER and others), 159 (O)
AMOR, A. J. (and CLARE SYKES): Training of the industrial nurse, 81 (O)
Anaemia, toxic, 204 (A)
Ancillary health services in industry (R. E. LANE), 232 (O)
Aniline intoxication, acute experimental, 67 (A)
Arterial occlusion in hands and fingers, 262 (A)
Ascorbic acid, loss of in cooking, 69 (A)
Association of Industrial Medical Officers, Proceedings of, 74 or 77, 136
Association of Industrial Medical Officers, Proceedings of Groups:
Birmingham, 75 or 78, 138, 263
Bristol, 77 or 80
Glasgow, 141, 263
Leeds, 75 or 78, 264
Liverpool, 75 or 78, 264
London, 75 or 79
Manchester, 76 or 79
Nottingham, 77 or 80, 142, 265
Tees-side, 77 or 80, 142

B

Bagasse disease of the lungs, 259 (A)
Bagassosis, 259 (A)
BARRIE, H. J. (and others): Investigation for signs of benzene intoxication, 238 (O)
Barrier substances, prevention of industrial dermatitis by use of, 69 (A)
BASHFORD, H. H.: Some aspects of sick absence in industry, 7 (O)
Battery workers, lead-exposed, health of, 68 (A)
BEDFORD, T.: Heating and ventilation: requirements and methods, 31 (O), 124 (Addendum)
Benzene, 253 (L)
———, intoxication in workers using aeroplane dope and rubber solutions, investigation for signs of (DONALD HUNTER and others), 238 (O)
Beryllium fluoride, pulmonary changes following inhalation of, 259 (A)
———, toxicity of, 260 (A)
Boiler scalers, disease of lungs in (H. E. HARDING and others), 247 (O)
Brightness, well-being, and work (H. C. WESTON), 180 (O)
BROWNING, ETHEL: Medical aspects of radiations used in industry, 170 (O)
Burns and scalds, first-aid treatment of (LEONARD COLEBROOK and others), 99 (O)
——, creosote, 128 (A)
—— of the hand (P. H. JAYES), 106 (O)
——, thermal, nitrogen requirements of patients with, 263 (A)
Butanone and acetone, poisoning and the hazard of, 261 (A)
Byssinosis—report of two cases and review of literature, 71 (A)

C

Cadmium poisoning, 131 (A)
CAPEL, E. H.: Nutrition and the industrial worker, 48 (O)
Carbon disulphide poisoning, diagnosis of, 261 (A)
——— tetrachloride, uremia following inhalation of, 261 (A)
——— ——— intoxication, chronic (ALICE STEWART and L. J. WITTS), 11 (O)
CHIESMAN, W. E. (and M. W. GOLDBLATT): Toxic effects of ethylene hydrochloride, 207 (O)
Chronic carbon tetrachloride intoxication (ALICE STEWART and L. J. WITTS), 11 (O)
Coal face, dust reduction at, 130 (A)
—— mining, health hazards of (S. W. FISHER), 153 (O)
COLEBROOK, LEONARD (and others): First-aid treatment of burns and scalds, 99 (O)
COLLIER, EDWARD: Prevention and control of cutting-oil dermatitis, 110 (O)
Compressed air, subcutaneous emphysema due to (G. P. B. WHITWELL), 179 (O)
CREER, W. SAYLE: Some foot faults related to form and function, 54 (O)
Creosote burns, 128 (A)
Cutting-oil dermatitis, prevention and control of (EDWARD COLLIER), 110 (O)

D

Dermatitis, cutting-oil, prevention and control of (EDWARD COLLIER), 110 (O)
———, industrial, memorandum on prevention, with special reference to barrier substances, 69 (A)
——— ———, memorandum on prevention of, dermatitis from glues used in aircraft construction, 69 (A)
Diabetes and injury, 204 (A)
Diethylaminoethanol as a reagent for detection and colorimetric determination of small amounts of T.N.T. in air, 129 (A)
Di-ethyl mercury poisoning, 70 (A)
Dinitrophenol cataract: production in an experimental animal, 260 (A)
Disabled ex-service men in U.S.S.R., 205 (A)
Dressing stations, design of, and control of wound infection (WILLIAM GISSANE and others), 90 (O)
Duralumin—*see* Aluminium.
Dust in steel foundries, 258 (A)
—— reduction at coal face by water sprays, 130 (A)
Dusts, air-borne, measurements of concentration, 67 (A)
——, industrial, estimation of free silica in, 129 (A)

E

Education in industry, venereal disease, 203 (A)
———, post-graduate, of physicians for industrial health services, 70 (A)
——— ———, in industrial health and hygiene, 203 (A)
Electric-arc welders, further observations on lung changes, 258 (A)
Electric welders, occupational disease of, 259 (A)
Electrostatic precipitator, a portable, 129 (A)
Emphysema, subcutaneous, due to compressed air (G. P. B. WHITWELL), 179 (O)
Ethylene chlorohydrin, toxic effects of (M. W. GOLDBLATT and W. E. CHIESMAN), 207 (O)
EVANS, R. BYRON (and others): Toxic polyneuritis arising during manufacture of tricresyl phosphate, 227 (O)
Evolution of an industrial society (M. GREENWOOD), 2 (O)
Exhaust fume poisoning, non-fatal effects of, 69 (A)
Eyes, am I injuring my, 128 (A)

F

Factory worker, health of, in war-time, 128 (A)
First-aid treatment of burns and scalds, (LEONARD COLEBROOK and others), 99 (O)

FISHER, S. W. : Health hazards of coal mining, 153 (O)
Fitting industry to human needs, 131 (A)
FITZSIMONS, M. PATRICIA: Gynaecomastia in stilboestrol workers, 235 (O)
Flicker fusion frequency as test of fatigue, 257 (A)
Fluoride ingestion and bone changes in experimental animals, 130 (A)
Foot faults related to form and function (W. SAYLE CREER), 54 (O)
Foreword to Number 1, Volume 1 (LORD MORAN), 1

G

Gasoline vapour, threshold toxicity of, 71 (A)
GIBSON, THOMAS (and others): First-aid treatment of burns and scalds, 99 (O)
GISSANE, WILLIAM (and others): Design of dressing stations and control of wound infection, 90 (O)
Glues used in aircraft construction, dermatitis from, 69 (A)
GOLDBLATT, M. W.: Investigation of toxic hazards, 20 (O)
——— (and W. E. CHIESMAN): Toxic effects of ethylene hydrochloride, Part 1, Clinical, 207 (O)
———: Toxic effects of ethylene hydroxide, Part 2, Experimental, 213 (O)
Grease gun injuries, 262 (A)
GREENWOOD, MAJOR: Evolution of an industrial society, 2 (O)
Gynaecomastia in stilboestrol workers (M. PATRICIA FITZSIMONS), 235 (O)

H

Hand, burns of the (P. H. JAYES), 106 (O)
Hands of certain metal workers, relative sterility of (L. LOMINSKI and G. R. THOMSON), 165 (O)
HARDING, H. E. (and others): Disease of lungs in boiler scalers, 247 (O)
Health and industrial efficiency, Scottish experiment in social medicine, 74 (R)
——— education on the industrial front, 20 (R)
——— hazards of coal mining (S. W. FISHER), 153 (O)
Heating and ventilation: requirements and methods (T. BEDFORD), 31 (O), 124 (Addendum)
HIMMELWEIT, H. T. (and J. W. WHITFIELD): Mean intelligence scores of a random sample of occupations, 224 (O)
H.M. Chief Inspector of Factories, Annual Report for year 1942, 73 (R)
Human needs, fitting industry to, 131 (A)
HUNTER, DONALD (and others): Effect of aluminium and alumina on the lung in grinders of duralumin aeroplane propellers, 159 (O)
——— (and others): Toxic polyneuritis arising during manufacture of tricresyl phosphate, 227 (O)
——— (and others): Investigation for signs of benzene intoxication in workers using aeroplane dope and rubber solutions, 238 (O)

I

Industrial dermatitis from glues used in aircraft construction, memorandum on the prevention of, 69 (A)
——— ——— with special reference to use of barrier substances, memorandum on prevention of, 69 (A)
——— health and hygiene, post-graduate education in, 203 (A)
——— ———, Conference on. Report of Proceedings, 70 (A)
——— ———, Essentials of (E. O. SAPPINGTON), 255 (R)
——— ——— research (R. S. F. SCHILLING), 145 (O)
——— hygiene and sanitation, 131 (A)
——— ———, Manual of (W. M. GAFAFER), 80 (R)
——— lead exposure, measurement by analyses of blood and excreta of workmen, 68 (A)
——— ——— ———, measurement by determination of stippling of erythrocytes, 68 (A)
——— management and the medical department, 131 (A)
——— Medical Officers, Proceedings of Association of, 77
——— Medicine, Legislation and Hygiene, Outlines of (J. BURNET), 80 (R)
——— ———, "Practitioner" handbook (HUMPHREY ROLLESTON and A. MONCRIEFF), 200 (R)
——— ———, The Principles and Practice of (F. J. WAMPLER), 80 (R)
——— nurse, training of the (A. J. AMOR and CLARE SYKES), 81 (O)
——— Nursing: Its Aims and Practice (A. B. DOWSON-WEISSKOPF), 201 (R)
——— Toxicology (DONALD HUNTER), 200 (R)
Industry's contribution to 'positive' health, 70 (A)
Injuries, grease gun, 262 (A)
Intelligence scores (mean) of a random sample of occupations (H. T. HIMMELWEIT and J. W. WHITFIELD), 224 (O)
Introductory, 66 (L)
Investigation of toxic hazards (M. W. GOLDBLATT), 20 (O)

J

JAYES, P. H.: Burns of the hand, 106 (O)
JOHNSON, ORLEN J.: Medical service in industry in the United States, 62 (O)
Journey to Work, The (K. LIEPMANN), 255 (R)

K

Kaiser Wakes the Doctors (PAUL DE KRUIF), 135 (R)

L

LANE, R. E.: Ancillary health services in industry, 232 (O)
Lead chromate, toxicity of, 205 (A)
——— exposed storage battery workers, health of, 68 (A)
——— exposure at the Government Printing Office (U.S.A.), 205 (A)
——— ———, industrial, analysis of blood and excreta of workmen, 68 (A)
——— ——— ———, measurement by determination of stippling of erythrocytes, 68 (A)
——— fume collection, filter paper method for, 129 (A)
——— poisoning, experimental studies on lead absorption and excretion and their relation to diagnosis and treatment, 68 (A)
——— ——— resulting from oxy-acetylene cutting of painted structural steel, 129 (A)
Leading Articles:
Benzene, 253
Introductory, 66
Miner, health of the, 198
New outlook, a, 197
Nurse in industry, the, 125
Paper for the JOURNAL, 199
Rehabilitation to come, 199
Sickness records in industry, 252
Wound infection in industry, 126
LETAVET, AUGUST: Medical service in industry in the U.S.S.R., 123 (O)
LOMINSKI, I. (and G. R. THOMSON): Relative sterility of hands of certain metal workers, 165 (O)
LOUTIT, J. F. (and others): Investigation for signs of benzene intoxication, 238 (O)
Lungs, disease of in boiler scalers (H. E. HARDING and others), 247 (O)

M

MCLAUGHLIN, A. I. G. (and others): Disease of lungs in boiler scalers, 247 (O)
Magnesium, action of upon lungs, 70 (A)
Manganese poisoning, industrial, 260 (A)
MARRACK, J. R.: New aspects of nutrition, 114 (O)
MARSHALL, T. S. (and others): Investigation for signs of benzene intoxication, 238 (O)
Mass radiography, 70 (A)
Mean intelligence scores of a random sample of occupations (H. T. HIMMELWEIT and J. W. WHITFIELD), 224 (O)
Medical department, industrial management and the, 131 (A)
——— service in industry in the United States (ORLEN J. JOHNSON), 62 (O)
——— ——— ——— in the U.S.S.R. (AUGUST LETAVET), 123 (O)
Mercury poisoning, di-ethyl, 70 (A)
Metal workers, relative sterility of hands of certain (I. LOMINSKI and G. R. THOMSON), 165 (O)
MILES, A. A. (and others): Design of dressing stations and control of wound infection, 90 (O)
MILTON, R. (and others): Effect of aluminium and alumina on the lung in grinders of duralumin aeroplane propellers, 159 (O)
——— (and others): Investigation for signs of benzene intoxication in workers using aeroplane dope and rubber solutions, 238 (O)
Miner, health of the, 198 (L)

Ventilation and Heating: Lighting and Seeing. I.H.R.B. Pamphlet No. 1, 134
Young Citizen (A. E. MORGAN), 134
ROCHESTER, G. D.: Physical nature of adiations used in industry, 168 (O)
Rubber solutions, toxic effects in women exposed to, 204 (A)
——— solvents, investigation for signs of benzene intoxication in workers using aeroplane dope and (DONALD HUNTER and others), 238 (O)
———, synthetic, health hazards encountered in the manufacture of, 261 (A)

S

Safety and industrial health in contract shipyards (U.S.A.), minimum requirements, 133 (R)
Scalds, first-aid treatment of, and burns (LEONARD COLEBROOK and others), 99 (O)
SCHILLING, R. S. F.: Industrial health research, 145 (O)
Scotland, Summary Report by the Department of Health for, 75 (R)
SCOTT, W. L. (and J. W. PARKS): Working capacity after thyroidectomy, 176 (O)
Shipbuilding industry, a study of pneumonia in, 203 (A)
Shipyards, minimum requirements for safety and industrial health in (U.S.A.), 133 (R)
Sick absence in industry: some aspects of (H. H. BASHFORD), 7 (O)
Sickness, non-occupational, the role of, 132
——— records in industry, 252 (L)
Silica gel method for determination of atmospheric organic solvent vapours, 129 (A)
——— in industrial dusts, a new method for determination of, 129 (A)
Silicosis in miners (U.S.S.R.), 257 (A)
———, treatment of by aluminium powder, 259 (A)
Silico-tuberculosis, 258 (A)
Social and Preventive Medicine Committee (R.C.P. London), Interim Report of, 202 (R)
——— medicine based on social statistics, 203 (A)
Solvent vapours, organic, silica gel method for determination of, 129 (A)
Solvents, volatile, investigation into effects of, 67 (A)
Statutory Rules and Orders, 1943, 135
Steel foundries, dust in, 258 (A)
———, painted structural, plumbism resulting from oxy-acetylene cutting of, 129 (A)
STEWART, A. (and L. J. WITTS): Chronic carbon tetrachloride intoxication, 11 (O)
Stilboestrol workers, gynaecomastia in (M. PATRICIAFI TZSIMONS), 235 (O)
Storage battery workers, lead-exposed, health of, 68 (A)
Subcutaneous emphysema due to compressed air (G. P. B. WHITWELL), 179 (O)
SYKES, CLARE (and A. J. AMOR): Training of the industrial nurse, 81 (O)

T

Temperatures, high environmental, effect of wet garments on body weight loss at, 204 (A)
Thermal burns, nitrogen requirements of patients with, 263 (A
THOMPSON, D. R. (and others): Effect of aluminium and alumina on the lung in grinders of duralumin aeroplane propellers, 159 (O)
THOMSON, G. RUSSELL (and I. LOMINSKI): Relative sterility of hands of certain metal workers, 165 (O)
Thyroidectomy, working capacity after (W. L. SCOTT and J. W. PARKS), 176 (O)
TOD, D. L. MCRAE (and others): Disease of lungs in boiler scalers, 247 (O)
TODD, J. P. (and others): First-aid treatment of burns and scalds, 99 (O)
Toxic anaemia, 204 (A)
——— hazards, investigation of (M. W. GOLDBLATT), 20 (O)
——— polyneuritis arising during manufacture of tricresyl phosphate (DONALD HUNTER and others), 227 (O)
Tricresyl phosphate, toxic polyneuritis arising during manufacture of (DONALD HUNTER and others), 227 (O)
Trinitrotoluene derivatives in human urine, method for determination of, 130(A)
———— in air, diethylaminoethanol as a reagent for detection and colorimetric determination of small amounts of, 129 (A)
——— poisoning, experimental, 262 (A)
Tri-*ortho*-cresyl phosphate, skin absorption of, 205 (A)
Tuberculous Patient, A Guide for the (G. S. ERWIN), 255 (R)

U

United States, medical service in industry in the (ORLEN J. JOHNSON), 62 (O)
U.S.S.R., medical service in industry in the (AUGUST LETAVET), 123 (O)

V

Venereal disease education in industry, 203 (A)
Ventilation and heating: lighting and seeing. I.H.R.B. Pamphlet No. 1, 134 (R)
——— ——— ———: requirements and methods (T. BEDFORD), 31 (O)
Vitamins A, B, C and D, influence of supplements of, on growth, health and physical fitness, 130 (A)
Volatile solvents, an investigation into effects of continued exposure to vapour of, 67 (A)

W

Water sprays, dust reduction at coal face by, 130 (A)
Weight lifting, 128 (A)
Welders, electric, occupational disease of, 259 (A)
———, electric-arc, further observations on lung changes in, 259 (A)
Welding hazards in national defence industries (U.S.A.), control of, 71 (A)
WESTON, H. C.: Brightness, well-being, and work, 180 (O)
Wet garments, effect of on body weight loss at high environmental temperatures, 204 (A)
WHITFIELD, J. W. (and H. T. HIMMELWEIT): Mean intelligence scores of a random sample of occupations, 224 (O)
WHITWELL, G. P. B.: Subcutaneous emphysema due to compress air, 179 (O)
WILLIAMS, R. E. O. (and others): Design of dressing stations and control of wound infection, 90 (O)
WITTS, L. J. (and ALICE STEWART): Chronic carbon tetrachloride intoxication, 11 (O)
Women in industry, 132 (A)
——— pregnant, supervision of in factory employment, 130 (A)
Wound infection, control of, and design of dressing stations (WILLIAM GISSANE and others), 90 (O)
——— ——— in industry, 126 (L)

Young Citizen (A. E. MORGAN), 134 (R)

INDEX TO ABSTRACTS

A

Absenteeism among industrial workers, problem of, 132
Acetone, physiological properties governing action of, together with determination of toxicity, 262
———, poisoning and the hazard of butanone and, 261
Aerosol—OT, chronic toxicity of, 129
Air-borne dusts, measurements of concentrations of, 67
Anæmia, toxic, 204
Aniline intoxication, acute experimental, 67
Arterial occlusion in hands and fingers, 262
Ascorbic acid, loss of, in cooking, 69

B

Bagasse disease of the lungs, 259
Bagassosis, 259
Barrier substances, prevention of industrial dermatitis by use of, 69
Battery workers, lead-exposed, health of, 68
Beryllium fluoride, pulmonary changes following inhalation of, 259
———, toxicity of, 260
Burns, creosote, 128
Butanone and acetone, poisoning and the hazard of, 261
Byssinosis—report of two cases and review of literature, 71

C

Cadmium poisoning, 131
Carbon disulphide poisoning, diagnosis of, 261
——— tetrachloride, uraemia following inhalation of, 261
Coal face, dust reduction at, 130
Creosote burns, 128

D

Dermatitis, industrial, memorandum on prevention, with special reference to use of barrier substances, 69
———————, memorandum on prevention of dermatitis from glues used in aircraft construction, 69
Diabetes and injury, 204
Di-ethyl mercury poisoning, 70
Dinitrophenol cataract: production in an experimental animal, 260
Disabled ex-service men in U.S.S.R., 205
Dust in steel foundries, 258
—— reduction at the coal face by water-sprays, 130
Dusts, air-borne, measurements of concentrations of, 67
———, industrial, estimation of free silica in, 129

E

Education, post-graduate, of physicians for industrial health services, 70
———— ————, in industrial health and hygiene, 203
———— in industry, venereal disease, 203
Electric-arc welders, further observations on lung changes, 259
Electric welders, occupational disease of, 259
Electrostatic precipitator, a portable, 129
Exhaust fume poisoning, non-fatal effects of, 69
Eyes, am I injuring my, 128

F

Factory worker, health of, in war-time, 128, 257
Fitting industry to human needs, 131
Flicker fusion frequency as test of fatigue, 257
Fluoride ingestion and bone changes in experimental animals, 130

G

Gasoline vapour, threshold toxicity of, 71
Glues used in aircraft construction, dermatitis from, 69
Grease gun injuries, 262

I

Industrial dermatitis from glues used in aircraft construction, memorandum on the prevention of, 69
———— ————, with special reference to the use of barrier substances, memorandum on the prevention of, 69
Industrial health and hygiene, post-graduate education in, 203
———— health, Conference on. Report of Proceedings, 70
———— hygiene and sanitation, 131
———— lead exposure, measurement by analyses of blood and excreta of workman, 68
———— ————, measurement by determination of stippling of erythrocytes, 68
Industrial management and the medical department, 131
Industry's contribution to ' positive ' health, 70
Injuries, grease gun, 262

L

Lead chromate, toxicity of, 205
—— exposed storage battery workers, health of, 68
—— exposure, industrial, measurement by determination of stippling of erythrocytes, 68
———— ———— ———— analysis of blood and excreta of workmen, 68
—— ———— at the Government Printing Office (U.S.A.), 205
—— fume collection, filter paper method for, 129
—— poisoning, experimental studies on lead absorption and excretion and their relation to diagnosis and treatment of, 68
———— ———— resulting from oxy-acetylene cutting of painted structural steel, 129

M

Magnesium, finely divided, action of upon lungs, 70
Manganese poisoning, industrial, 260
Mass radiography, 70
Medical department, industrial management and the, 131
Mercury poisoning, di-ethyl, 70

N

Naphthalenes, pentachlorinated, in industry, 261
Night sanatoria in U.S.S.R., 257
Nitrite field method for determination of oxides of nitrogen, 130
Non-occupational sicknesses, role of, 132
Nutrition in war industry, 71

O

Occupational disease exposures during war-time, unexpected, 71
Organic solvent vapours, a modification of silica gel method for determination of, 129
Oxy-acetylene cutting of painted structural steel—plumbism resulting from, 129

P

Pentachlorinated naphthalenes in industry, 261
Phosphorus caries and necrosis, modern, 261
———— workers, prophylaxis for, 261
Physical examination, processing technics in, 69
Plumbism resulting from oxy-acetylene cutting of painted structural steel, 129
Pneumonia in the shipbuilding industry, a study of, 203
Positive health, industry's contribution to, 70
Pregnant women in factory employment, supervision of, 130

R

Radiography, mass, 70
Radium dial workers and radiologists, protection of from injury by radium, 130
Rubber solutions, toxic effects in women exposed to, 204
———, synthetic, health hazards encountered in the manufacture of, 261

S

Shipbuilding industry, a study of pneumonia in, 203
Sicknesses, non-occupational, the role of, 132
Silica gel method for determination of atmospheric organic solvent vapours, 129
—— in industrial dusts, a new method for determination of, 129
Silico-tuberculosis, 258
Silicosis, in miners (U.S.S.R.), 257
———— treatment of by aluminium powder, 259
Social medicine based on social statistics, 203
Solvent vapours, organic, silica gel method for determination of, 129
Solvents, volatile, investigation into effects of continued exposure to vapour of, 67
Steel, painted structural, plumbism resulting from oxy-acetylene cutting of, 129
—— foundries, dust in, 258
Storage battery workers, lead-exposed, health of, 68

T

Temperatures, high environmental, effect of wet garments on body weight loss at, 204
Thermal burns, nitrogen requirement of patients with, 263
Toxic anaemia, 204
Trinitrotoluene derivatives in human urine, method for determination of, 130
———————— in air, diethylaminoethanol as a reagent for detection, and colourimetric determination of small accounts of, 129
———————— poisoning, experimental, 262
Tri-*ortho*-cresyl phosphate, skin absorption of as shown by radioactive phosphorus, 205

V

Venereal disease education in industry, 203
Vitamins A, B, C and D, influence of supplements of on growth, health and physical fitness, 130
Volatile solvents, investigation into effects of continued exposure to vapour of, 67

W

Water sprays, dust reduction at coal face by, 130
Weight lifting, 128
Welders, electric-arc, further observations on lung changes in, 259
———, electric, occupational disease of, 259
Welding hazards in national defence industries (U.S.A.), control of, 71
Wet garments, effect of on body weight loss at high environmental temperatures, 204
Women in industry, 132
———— pregnant, supervision of in factory employment, 130
